

20-inch Alloy Folding Bicycle with Shimano 7-Speed Gears

This folding bicycle is equipped with a lightweight alloy frame and a Shimano 7-speed drivetrain for smooth gear changes. It has V-brakes for responsive stopping power and folds compactly for convenient storage and portability.

Overview

Urban Commuter Folding Bicycle

This 20-inch folding bicycle is engineered for urban commuting and convenient storage. Featuring a lightweight alloy frame and a reliable Shimano 7-speed drivetrain, it offers smooth gear transitions and agile handling on city streets. The compact folding mechanism ensures easy transport on public transit or storage in tight spaces, making it an ideal solution for modern city dwellers.
