

20-Inch Floor Fan with Scorpion Base

This 20-inch fan features a robust scorpion base design for enhanced stability and mobility. Constructed with a durable metal frame and a protective wire cage, it ensures safety and longevity.

Overview

High-Velocity Cooling Solution

This 20-inch floor fan is engineered for powerful performance in industrial, commercial, and residential settings. Featuring a robust scorpion base design with smooth-rolling casters, it offers both exceptional stability and effortless mobility across various surfaces. The durable metal construction, combined with a high-efficiency motor and aluminum blades, ensures reliable airflow and long-lasting operation.

Technical Specifications

Power Performance

120 V Voltage	60 Hz Frequency	120 W Power Output

Physical Dimensions & Weight

Attribute	Value
Net Weight	5.85 kg
Cord Length	1.6 m
Blade Material	Aluminum

Features

Operational Features

- 3-speed rotary switch
- Adjustable tilting fan head
- Adjustable fan height
- Oscillation functionality
- Movable scorpion base with casters

Construction Details

Durable ball-bearing motor, Black finishing guards, Metal frame construction, High velocity airflow

Logistics

Packaging

Individually packed in a color box
