

20-Inch Folding Bicycle with Fenders and Rack

This compact folding bicycle features a lightweight frame and 20-inch wheels for easy transport and storage. It is equipped with a single-speed drivetrain, front and rear fenders, and a rear rack.

Overview

Compact Urban Mobility

This 20-inch folding bicycle is engineered for convenience and efficiency, making it an excellent choice for urban commuters and recreational riders. Its lightweight frame design ensures easy handling, while the inclusion of fenders and a rear rack adds practical utility for daily tasks. With adjustable components for a customized fit, this bike offers a versatile solution for those needing a portable and reliable transport option.
