

20-inch Folding Bicycle with Steel Frame

This folding bicycle has a 20-inch wheelset and a durable steel frame. It is equipped with a front caliper brake and rear coaster brake.

Overview

Compact Urban Mobility

This 20-inch folding bicycle is engineered for convenience and durability, featuring a robust TIG-welded steel frame perfect for urban commuting. Designed with a girl-model geometry, it offers easy mounting and a comfortable ride with a spring-supported two-tone saddle. The bike comes fully equipped with essential accessories including a carrier, mudguards, and a frame pump, making it a ready-to-use solution for daily travel.
