

20-inch Folding Electric Bicycle

This 20-inch folding electric bicycle is designed for urban commuting and recreational riding. Its folding frame allows easy storage and transportation.

Product Overview

Compact Urban Mobility

This 20-inch folding electric bicycle is engineered for versatility and efficiency in urban environments. Its space-saving folding frame design facilitates convenient storage and transport, making it an excellent solution for commuters utilizing public transit or those with limited living space. Powered by a reliable lithium-ion battery, the bike offers electric assistance to enhance riding performance and reduce physical exertion.

Technical Specifications

Wheel Size	20 inch
Folding Mechanism	Yes
Battery Type	Lithium-ion

Key Features

Best For

Urban Commuting • Recreational Riding • Public Transit Integration

Key Features	Folding Frame, Electric Motor, Lithium-ion Battery, Integrated Controls, Responsive Brakes
