

20-Inch Petrol Chainsaw

This petrol chainsaw features a 20-inch bar, making it suitable for cutting through logs, branches, and trees. It is equipped with a high-performance engine for efficient cutting and a durable construction for long-lasting performance.

Product Overview

Professional Grade Performance

This 20-inch petrol chainsaw is engineered for both professional and residential wood-cutting tasks, offering a robust engine for efficient performance. It features a focus on user comfort and safety, including an effective anti-vibration system and an ergonomic build to reduce fatigue. The inclusion of an engine clean air-intake system and a reliable primer bulb ensures consistent starting and long-term durability in various working conditions.
