

20 L Mist Duster with 12 m Blower Range

This mist duster features a 20 L container. It has a 12 m blower range and a 2.0kw/r/min output.

Overview

High-Efficiency Mist Duster

This powerful mist duster is designed for versatile agricultural and gardening applications. It features a high-performance, low-emission engine that ensures efficient operation while maintaining environmental standards. With a generous 20-liter tank capacity, it minimizes downtime for refills, and the adjustable system allows for seamless switching between sprayer and duster modes.
