

20-Liter Thermoelectric Cooler and Warmer

This thermoelectric device functions as both a cooler and a warmer, offering a 20-liter capacity. It can cool to 18-22°C below ambient temperature and heat up to 65±5°C, with LED indicators for each mode.

Product Overview

Versatile Thermal Management

The TK-20 is a high-capacity 20-liter thermoelectric cooler and warmer designed for flexibility in both professional and leisure settings. It efficiently cools to 18-22°C below ambient temperature or heats up to 65±5°C, making it suitable for year-round use. With support for both AC and DC power supplies, this unit seamlessly transitions between office, home, and vehicle environments.

Technical Specifications

Cooling Capacity

22 °C

Below Ambient Temperature

Heating Capacity	65±5°C (controlled by thermostat)
Power Consumption	50 W
Internal Capacity	20 L

Power & Compatibility

Power Supply	AC 220V, AC 110V, DC 12V
--------------	--------------------------

Logistics & Packaging

FCL Capacity

Container Type	Capacity (Units)
20' Container	450
40' Container	826

Packaging Details

- Color box: 38.0 x 35.0 x 47.0 cm
- Carton box (2 pcs): 71.5 x 39.2 x 49.5 cm
