

20-Ton Manual Chain Hoist

This heavy-duty chain hoist is designed for industrial and construction applications. Capable of lifting up to 20 tons, it provides reliable and safe operation with its robust construction and secure braking mechanism.

Overview

Heavy-Duty Lifting Solution

The HSZ Series Chain Block is a robust, manual lifting device engineered for demanding industrial and construction environments. With a substantial 20-ton capacity, it utilizes high-strength alloy steel construction to ensure durability and wear resistance. Its integrated gear system facilitates efficient operation, while built-in safety mechanisms like overload protection and reliable braking provide peace of mind during heavy lifting tasks.

Technical Specifications

Lifting Capacity

20 t

Max Load

Safety Features

- Overload protection
- Secure braking mechanism

Materials

High-strength alloy steel, Hardened alloy steel chain

Application

Suitable Environments

Workshops • Factories • Construction Sites • Confined Spaces
