

200-300 LPM Fuel Dispenser

This heavy-duty fuel dispenser dispenses fuel at a rate of 200 to 300 liters per minute. It is suitable for industrial settings and fueling stations requiring rapid and reliable fuel dispensing.

Product Overview

High-Volume Fuel Dispensing Solution

This heavy-duty fuel dispenser is engineered for high-volume industrial and commercial applications. With a robust construction designed for long service life, it ensures reliable operation in demanding environments such as fueling stations and large-scale industrial sites. The unit includes an integrated control panel, dispensing nozzle, and hose for precise fuel delivery and monitoring.

Performance Specifications

Flow Rate

200 LPM

Minimum Flow Rate

300 LPM

Maximum Flow Rate

Primary Applications

Industrial, Fueling Stations, High-Volume

Features

Included Components

- Dispensing nozzle
- Fuel hose
- Integrated control panel

Build Quality

Heavy-duty • Durable • Safety-focused
