

# 2000kg Flat Webbing Sling

This flat webbing sling is designed for lifting heavy loads. It is made from durable woven material with reinforced loops at each end for secure attachment.

## Product Overview

### Professional Lifting Solution

This 2000kg flat webbing sling is engineered for safe and efficient heavy-load handling in industrial and construction environments. Designed with a high strength-to-weight ratio, it offers a versatile and reliable solution for lifting, dragging, or pulling objects. The material is lightweight and soft, making it ideal for use in narrow spaces while ensuring tender objects remain undamaged during the lifting process.

## Technical Specifications

### Working Load Limit

**2000 kg**  
WLL

### Safety & Compliance

Non-electric conductive, Anti-abrasion, Anti-incision, Color-coded

## Product Characteristics

### Key Advantages

- High strength-to-weight ratio
- Smooth surface prevents damage to loads
- Suitable for round objects
- Lightweight and flexible for narrow spaces
- Easy color-coded identification

### Material Properties

Non-conductive • Soft-touch surface • Durable woven material
