

2000W Steam Iron with Supergliss Soleplate

This is a high-performance steam iron with a 2000W heating element. The Supergliss soleplate ensures smooth gliding over fabrics, while anti-calc, auto-off, and anti-drip functions enhance safety and longevity.

Product Overview

Professional Performance Steam Iron

This 2000W high-performance steam iron is engineered for efficiency and fabric care. Featuring a premium Supergliss soleplate, it provides effortless gliding across all garment types while minimizing the risk of scorching. Equipped with advanced safety features like auto-shutoff and anti-drip technology, this iron ensures reliability and spotless results for intensive professional use.

Technical Specifications

Power Output

2000 W
Rated Power

2400 W
Peak Power

Voltage/Frequency

AC220-240V 50-60Hz

Performance Features

Core Functions

Steam, Spray, Burst Steam, Vertical Steam, Self-cleaning

Safety & Maintenance

Safety Features

- Overheating protection
- Auto shut-off
- Anti-drip system
- Anti-calc system

Design & Build

Soleplate Technology

Supergliss Non-stick Ceramic Coating

Temperature Control

Yes
