

# 200cc Off-Road Motorcycle

This off-road motorcycle features a 200cc air-cooled engine for reliable power. It is equipped with disc brakes and rugged tires for enhanced performance on varied terrains.

## Overview

Rugged design optimized for off-road performance.

### Built for the Trail

This 200cc off-road motorcycle is engineered for performance and durability on challenging terrains. Featuring a robust build with high-ground clearance and long-travel suspension, it provides excellent stability for off-road enthusiasts. With its modern digital instrumentation, reliable braking system, and aggressive tire design, it is designed to deliver a safe and exhilarating riding experience.

## Dimensions & Weight

### Physical Dimensions

Attribute	Value
Length	2137 mm
Width	830 mm
Height	1200 mm
Wheelbase	1435 mm
Ground Clearance	235 mm
Seat Height	860 mm

## Performance & Technical

### Key Performance Metrics

**130 kg**

Dry Mass

**6.8 L**

Fuel Capacity

**2.8 L/100km**

Fuel Efficiency

## Mechanical Features

Equipped with a performance-oriented stainless steel exhaust and high-traction knobby tires.

### Mechanical Components

- Stainless steel exhaust system with heat shield
- Front and rear disc braking system
- Aluminum alloy rims
- Aluminum alloy rear swing arm
- Carbureted fuel system

## Electronics & Display

Clear digital display featuring speed, RPM, fuel level, and odometer data.

### Electronics

LED Headlight, Decorative LED lights, LCD Digital Speedometer
