

200cc Single-Cylinder Motorcycle Engine

This single-cylinder, four-stroke engine has a 200cc displacement and is suited for motorcycles. It is designed with an overhead valve configuration and air-cooling system.

Overview

Reliable 200cc Powerplant

This 200cc single-cylinder, four-stroke engine is engineered for consistent performance and durability in motorcycle applications. Featuring an air-cooled design and a balanced power-to-torque ratio, it offers a dependable solution for various light-to-medium duty transport needs. With both electric and kick-start capabilities, it ensures reliable operation in diverse working conditions.

Technical Specifications

Engine Model	TM163FML
Configuration	1 Cylinder, 4 Stroke, Air-Cooled
Displacement	196 ml
Bore x Stroke	63.5 x 62 mm

Performance Metrics

Key Performance Metrics

9 kW Max Power	8000 r/min Power Speed	12 N.m Max Torque	6000 r/min Torque Speed
--------------------------	----------------------------------	-----------------------------	-----------------------------------

Operational Details

Starting System Electric • Kick	
Ignition	CDI
Lubrication	Pressure / Splash

Dimensions

Overall Size	350 x 330 x 450 mm
