

200mm Axial Fan

This is an axial fan designed for use in various appliances. It has a diameter of 200mm.

Overview

High-Performance Axial Fan

This 200mm axial fan is designed for efficient air movement in industrial and commercial ventilation applications. Engineered for reliability and consistent airflow, it serves as a robust solution for cooling or exhaust requirements. Its compact form factor ensures easy integration into various housing units and systems.

Technical Specifications

Fan Diameter	200 mm
Fan Type	Axial
