

200W Car Power Inverter with USB Charging Port

This 200W mini car inverter converts 12 DC into 100-120V/220-240V AC. It can be plugged into a vehicle's cigarette lighter socket to power electronic devices, and the USB charging port offers an additional charging option.

Overview

Compact Power Solution

This 200-watt car power inverter efficiently converts 12V DC vehicle battery power into standard 110V/220V AC output. Designed for convenience and safety, it enables users to power small electronic devices and appliances while on the move. It is an ideal solution for charging smartphones, laptops, tablets, and other portable electronics in cars, trucks, RVs, and boats.

Technical Specifications

Rated Power

200 W

Output Power

Input Voltage

12V DC

Output Voltage

110V/220V AC

Features & Safety

Safety Features

- Overload protection
- Over-temperature protection
- Short circuit protection

Connectivity

Universal AC Outlet • USB Charging Port

Certifications

CE
