Overview

Industrial-Grade Illumination

This 200W UFO LED high bay light is engineered for demanding industrial environments, including warehouses, factories, and large commercial workshops. Featuring a warm 2700K color temperature, it delivers efficient, uniform illumination designed specifically for high-ceiling applications. The unit incorporates a robust heat sink for superior thermal management, ensuring long-lasting performance and reliability in heavy-duty settings.

Technical Details

Design Features

- Circular design for wide light distribution
- Robust heat sink for thermal management
- Suspension ring for easy installation
- Durable construction for demanding environments

Recommended Applications

Warehouses, Factories, Workshops, Commercial Spaces, High Ceiling Areas
