Product Overview

High-Performance Double Pole Switch

This 20A Double Pole wall switch is engineered for reliable power transmission and distribution in demanding environments. Featuring a robust grey enclosure and a built-in neon status indicator, it ensures both safety and operational clarity. The design incorporates high-quality materials like fire-retardant ABS and silver alloy contactors to provide long-lasting durability and superior electrical conductivity.

Technical Specifications

Rated Current

20 A

Rated Current

Switch Type: Double Pole (DP)

Indicator Light: Yes

Material & Construction

Housing Material: Fire-Retardant ABS

Contact Material: Silver Alloy

Internal Components: Full Copper, Conducting Strip

Design Features

Key Features

- Wall protection design to prevent surface damage
- Quick and easy assembly cord hole
- Color-fade resistant material
- Minimalist design suitable for various architectures
