Overview

Reliable Mechanical Weighing Solution

This robust mechanical dial spring scale is engineered for consistent performance in various weighing applications. Featuring a durable stainless steel weighing pan, it ensures hygiene and longevity in professional environments. With a reliable internal structure and precise graduation, this scale is designed to meet standard weighing needs efficiently.

Technical Specifications

Capacity Options

- 5kg
- 10kg
- 15kg
- 20kg

Graduation Options

- 20g
- 50g
- 100g

Available Colors

Grey • Blue • Green

Pan Material

Stainless Steel

Design Features

Mechanical Dial, Registered Design Patent, Reliable Structure

Country of Origin

China
