

20kVA Automatic Voltage Stabilizer

This 20kVA automatic voltage stabilizer ensures a stable voltage output for sensitive electronic equipment. It automatically regulates voltage fluctuations to protect connected devices from damage.

Product Overview

Professional Voltage Stabilization

This 20kVA automatic voltage stabilizer is designed to provide stable and reliable power for sensitive electronic equipment in industrial, commercial, and residential settings. It features an advanced copper coil design and integrated circuitry to protect connected devices from voltage fluctuations, surges, and sags. With its robust construction and high-precision output, it ensures consistent operation even in challenging electrical environments.

Technical Specifications

Rated Power Capacity

20 kVA
Capacity

Operating Performance

Parameter	Specification
Input Voltage Range	150V-250V (or 110V-250V)
Output Voltage	220V±3% and 110V±3%
Efficiency	>90%
Response Time	1 sec
Power Factor	0.8
Frequency	50Hz/60Hz

Environmental Ratings

- Ambient Temperature: -10°C to +40°C
- Relative Humidity: <90%
- Insulation Resistance: >50MΩ

Features and Design

Key Features

Copper Coil Design, Dual Voltage Output, Overvoltage Protection, Integrated Cooling, Mobile Chassis
