

2.0kW Gasoline Generator Set with AVR

This gasoline generator set provides 2.0kW rated output and 110V AC output voltage. It is equipped with an engine oil warning system and AVR for stable voltage.

Overview

Reliable Power Generation

This 2.0kW gasoline generator set is engineered for consistent, reliable performance in both residential and commercial settings. Featuring an advanced Automatic Voltage Regulator (AVR), it provides stable power output to protect sensitive electronics from voltage spikes. With a robust frame design and integrated safety systems like low oil shutdown and overload protection, this unit is built for durability and ease of use.

Technical Specifications

Voltage Outputs

- AC 110V
- AC 220V
- DC 12V 8.3A

Safety Features

AVR (Automatic Voltage Regulator), Over-voltage Protection, Overload Protection, Over-heat Protection, Oil Alert System, Hydraulic-Magnetic Circuit Breaker

Certifications

Compliance & Standards

CE • EC-II • EPA • CARB • EMC

Design & Build

Design Features

- Manual Start
- Optional Electric Start with Battery
- Wheel Kit
- Large Muffler for Quiet Operation
- Robust Protective Frame
