

2.0L Electric Kettle with Water Level Indicator

This electric kettle features a water level indicator with markings up to 2.0L for easy monitoring. It has an ergonomic handle and a power button on the side.

Product Overview

Sleek and Functional Design

This 2.0L electric kettle combines an aesthetic cream-colored body with elegant light blue accents, making it a stylish addition to any professional kitchen or breakroom. Designed with user comfort in mind, the ergonomic handle ensures steady, controlled pouring during every use. The integrated water level window with clear markings allows for precise filling, helping to prevent overfilling and conserve energy.
