Overview

High-Performance Lithium-Ion Power

This 20V 2Ah Lithium-Ion battery is engineered to deliver reliable power and extended run times for cordless power tools. Designed for both professional and DIY applications, it features a lightweight and compact form factor that helps reduce user fatigue during extended projects. Built-in safety protocols protect against overcharging, overheating, and short circuits, ensuring long-lasting performance and operational safety.

Technical Specifications

Capacity

2 Ah

Capacity

Maximum Initial Voltage	20 V
Nominal Voltage	18 V
Chemistry	Lithium-Ion

Safety & Features

Safety Protections	Overcharge Protection, Overheat Protection, Short Circuit Protection
--------------------	--

Package Contents

Included Items

- 1x 20V 2Ah Lithium-Ion Battery
