Overview

Professional Cordless Performance

This 5-inch cordless angle grinder is engineered for demanding cutting and grinding tasks, featuring a high-efficiency brushless motor that ensures long service life and reduced noise. Designed with user safety in mind, it includes overload, rotation-blocking, and power-off protection systems, alongside a dust-proof motor structure. The tool offers a soft start and brake function, providing precise control and enhanced operational safety for professional applications.

Power & Performance

Motor Technology

Brushless Motor

Maximum Voltage

20 V

Nominal Voltage

18 V

Technical Specifications

Key Features

- 360° angle adjustment design
- Soft start and brake function
- Aluminum alloy gear housing
- Dust-proof motor structure
- Removable dust-proof net
