

20V Cordless Brushless Impact Driver

This 20V cordless impact driver utilizes brushless motor technology for enhanced performance and extended runtime. The tool features variable speed control for accurate driving and a compact design to reach confined areas.

Overview

High-Performance Cordless Impact Driver

This 20V Li-ion Brushless Impact Driver is engineered for professional-grade performance and extended runtime, utilizing advanced brushless motor technology. Its compact, ergonomic design allows for easy navigation in tight spaces, while the variable speed control ensures precision during driving tasks. Equipped with a quick-release chuck and an integrated LED work light, this tool offers both convenience and enhanced visibility for demanding work environments.

Technical Specifications

Voltage	20 V
Motor Type	Brushless
Battery Platform	20V Max Lithium-Ion

Features

Key Features	Brushless Motor, Variable Speed Control, Quick-Release Chuck, LED Work Light, Compact Design
