

20V Cordless Brushless Impact Wrench

This 20V cordless impact wrench is designed for a variety of fastening applications. It features a brushless motor for extended runtime and durability, and is powered by a 20V lithium-ion battery.

Overview

High-Performance Cordless Impact Wrench

This professional-grade 20V cordless impact wrench is engineered for efficiency and durability in demanding fastening applications. Featuring a high-endurance brushless motor, it delivers superior torque while maintaining low noise levels and minimal interference. Designed for reliability, the tool includes advanced safety features such as short-circuit protection and a leakage-prevention gearbox, making it a dependable choice for rigorous worksite tasks.

Technical Specifications

Motor Technology	Brushless
Maximum Initial Voltage	20 V
Nominal Voltage	18 V
Battery Capacity	4 Ah
Quick Charge Time	1 h

Features

Key Features

- Integrated LED work light
- Short-circuit protection
- Battery capacity indicator
- Leakage-prevention gearbox
- Battery loosen prevention design
- Adjustable torque settings

Performance

Performance Highlights

20 V Max Voltage	4 Ah Battery Capacity
