Product Overview

Professional Cordless Sanding Performance

This 20V cordless orbital sander is engineered for efficiency and portability, making it an essential tool for woodworking and surface refinishing. Featuring a 125mm sanding plate and a random orbit action, it delivers consistent, smooth results across various materials. Its ergonomic design and integrated dust extraction port ensure user comfort and a cleaner workspace during extended operations.

Technical Specifications

Power Source	20V Lithium-Ion
Orbit Speed (No Load)	22000 opm
Orbital Stroke Rate	20000 opm
Orbit Diameter	2.5 mm
Sanding Plate Diameter	125 mm
Speed	10000 RPM

Features

Design & Control

Feature	Specification
Variable Speed	No
Handle Type	Easy Grip
Switch Type	On/Off switch

Key Features Random Orbit, Cordless, Hook & Loop Attachment, Dust Extraction Port

Compatibility & Support

Battery Compatibility

- 18V Li-ion (Battery/Charger sold separately)
- 20V Li-ion
