

20V Cordless Wet and Dry Vacuum Cleaner

This cordless vacuum cleaner is designed for both wet and dry messes. Powered by a 20V battery, it offers portability for use in cars, workshops and homes.

Overview

Versatile Cleaning Performance

This 20V Cordless Wet and Dry Vacuum Cleaner offers a highly portable cleaning solution for both professional and home environments. Designed with a durable 10L ABS barrel, it effectively handles both liquid spills and dry debris. The cordless operation, powered by a 20V battery, ensures maximum mobility, while the included accessories and telescopic hose provide the flexibility needed for various cleaning tasks.
