Overview

Professional Cordless Performance

This 20V Max cordless jigsaw is engineered with a high-efficiency brushless motor, offering extended runtime, reduced noise, and superior durability for demanding tasks. Designed for professional use, it features a quick-change blade system and integrated LED lighting to ensure precision and visibility in all working conditions. The tool includes advanced safety features such as power failure protection and short-circuit prevention for reliable operation.

Technical Specifications

Motor Technology	Brushless
Maximum Voltage	20 V
Nominal Voltage	18 V

Features

Key Features

- Integrated LED work light
- Tool-free quick change blade design
- Variable speed control
- Dust suction and bottom dust management
- Lifting tool function

Safety & Protection

Safety Systems	Short-circuit protection, Power failure protection, Battery capacity indicator
