Overview

High-Performance Cordless Jigsaw

This 20V Max cordless jigsaw is engineered for precision and durability, featuring an advanced brushless motor that provides extended runtime, high efficiency, and low noise operation. Designed with professional utility in mind, it includes a built-in LED light for visibility in dark workspaces and a quick-change blade system for seamless operation. The tool is equipped with comprehensive safety features, including power failure protection and battery status monitoring, ensuring reliable performance on the job site.

Power & Battery

Battery Voltage

20 V

Max Voltage

18 V

Nominal Voltage

Battery Capacity

4 Ah

Key Features

Core Features

Brushless Motor, LED Work Light, Variable Speed Control, Dust Suction System, Quick-Change Blade

Safety & Protection

Safety Systems

- Power failure protection
- Battery short circuit protection
- Battery capability monitoring

Design & Ergonomics

Design Highlights

Low Noise • Low Interference • High Efficiency • Ergonomic Handling

Package Contents

What's Included

- Cordless Jigsaw
- 4Ah Battery
- Blow Molded Case (BMC)
