Overview

Professional Performance Cordless Drill

This 20V cordless drill is engineered for versatility and reliability in both professional and DIY environments. Featuring a variable two-speed gearbox, it provides optimal torque and speed control for a wide range of drilling and fastening tasks. Its ergonomic, lightweight design minimizes user fatigue during extended operation, making it an essential tool for any job site.

Technical Specifications

Voltage	20 V
Battery Capacity	2 Ah
Chuck Capacity	0.8mm - 10mm
Gearbox Settings	2

Features

Key Features

- Variable 2-speed gearbox
- Adjustable torque clutch
- Lightweight ergonomic design
- High-capacity battery system

Ideal Applications

Drilling, Screwdriving, Fastening, Professional Use, DIY Projects
