

20W LED Zoomable Headlamp with Red Safety Light

This headlamp features a 20W white LED for powerful illumination. It includes a zoom function for adjusting the beam focus and a red light on the battery pack for added visibility.

Product Overview

High-Performance Zoomable Headlamp

This 20W LED headlamp is designed for professional use, offering a powerful 2000-lumen output and a maximum beam distance of 200 meters. Featuring a versatile zoom function, users can easily switch between long and short beams by rotating the head. With its durable aluminum construction, adjustable 120-degree swivel head, and integrated rear red safety light, it provides both illumination and visibility in demanding environments.
