Overview

High-Efficiency Outdoor Illumination

This 20W outdoor LED flood light is engineered for durability and reliable performance in demanding environments. Featuring advanced SMD LED technology, it delivers uniform and bright illumination suitable for security, landscape, and general outdoor lighting needs. The robust die-cast aluminum housing ensures excellent heat dissipation, significantly extending the product's lifespan.

Technical Specifications

IP Rating

IP65 • IP66

Power Consumption

20 W

Housing Material

Die-cast aluminum

LED Type

SMD (Surface Mount Device)

Applications

Recommended Uses

Security Lighting, Landscape Lighting, Garden Illumination, Pathway Lighting
