Product Overview

High-Efficiency 20W Fast Charging Solution

This 20W PD and QC fast charger adapter provides high-speed charging performance for modern smartphones, including iPhone and various USB-C enabled devices. Engineered for safety and reliability, it features comprehensive protection against over-current, over-voltage, and short-circuits. With universal 100-240V input compatibility, it is an ideal power solution for international professional use.

Technical Specifications

Power Delivery Performance

| | | |
|---------------------------------|-----------------------------------|-----------------------------------|
| 20 W Max Output Power | 100 V Min Input Voltage | 240 V Max Input Voltage |
|---------------------------------|-----------------------------------|-----------------------------------|

Supported Charging Output

| Output Type | Parameters |
|-------------|----------------------------------|
| USB-C PD | 5V-3A, 9V-2A, 9V-2.22A, 12V-1.5A |
| USB-A | 5V-3A, 9V-2A, 9V-2.22A, 12V-1.5A |

Compliance & Safety

Certifications

CE • FCC • CCC

Protection Mechanisms

Over-current Protection, Over-voltage Protection, Short-circuit Protection, High-heating Protection, Aging Tested

Logistics & Warranty

| | |
|-------------------|--------------------|
| Warranty Coverage | 2 years |
| Lead Time | 15-20 working days |
