

2.1 Channel Computer Speaker System

This 2.1 channel computer speaker system is designed for desktop use. It includes a subwoofer and two satellite speakers to provide a full range of audio.

Overview

High-Performance Audio Solution

The EM-3697FT is a versatile 2.1 channel computer speaker system engineered to deliver immersive audio for desktop environments. Featuring a powerful subwoofer for deep bass and dedicated satellite speakers for crisp mid and high frequencies, this system ensures a balanced sound profile. With multiple connectivity options including Bluetooth, USB/SD playback, and FM radio, it serves as a comprehensive multimedia hub for professional or personal workstations.
