

2.1 Channel Computer Speaker System

This 2.1 channel speaker system is designed for use with computers, gaming consoles, and other audio devices. It features a subwoofer for deep bass and two satellite speakers for clear highs and mids.

Overview

Immersive 2.1 Channel Audio

This 2.1 channel computer speaker system is engineered to deliver a balanced and immersive audio experience for your workspace or gaming setup. Featuring a dedicated subwoofer for deep, resonant bass and two satellite speakers for crisp mids and highs, it provides a comprehensive soundstage. Designed with a sleek black finish, this system is compatible with a wide range of devices via a standard 3.5mm stereo connection.
