

2.1 Channel Computer Speaker System with Subwoofer

This 2.1 speaker system includes a subwoofer and two satellite speakers. The subwoofer features a front-firing port and bass volume control.

Product Overview

High-Performance 2.1 Channel Audio

This 2.1 channel computer speaker system delivers a balanced and immersive audio experience, combining a powerful subwoofer for deep bass with two compact satellite speakers for clear mid-to-high tones. Designed specifically for modern workstations, the system features convenient front-mounted controls for volume and bass adjustments. Its sleek aesthetic and compact footprint make it an ideal choice for professional environments requiring reliable desktop sound reinforcement.
