

2.1 Channel Speaker System with Subwoofer

This 2.1 channel speaker system provides immersive audio experiences. It has a subwoofer and two satellite speakers, delivering balanced sound with deep bass and clear highs.

Overview

Immersive 2.1 Channel Audio Experience

This 2.1 channel speaker system is engineered to provide a balanced and immersive audio experience, combining a powerful subwoofer for deep bass with two satellite speakers for crisp, detailed highs. Designed for versatility, the system features a wide range of connectivity options including Bluetooth, USB, and SD card support. With its integrated LED display and remote control, it offers a user-friendly interface suitable for both home and office environments.
