

2.1 Channel Speaker System with Subwoofer

This 2.1 speaker system provides powerful and strong sound with a big 6.5-inch subwoofer and sweet, translucent sound from the satellite speakers. It supports music playback from USB disks and SD cards.

Overview

Immersive Audio Experience

This 2.1 channel speaker system is engineered to deliver a balanced and immersive audio experience, combining a dedicated subwoofer for deep, resonant bass with two satellite speakers for crisp mid and high-frequency clarity. Designed for versatility, it is an excellent choice for enhancing audio performance in gaming, music playback, and cinematic viewing. The system features a robust build and standard connectivity, ensuring seamless integration into various professional and home entertainment setups.
