

210mm Welded Ceramic Tile Cutting Blade

This blade is used for cutting ceramic tiles with high hardness, such as polishing and rustic tile. It offers high sharpness, no chipping, and a smooth cutting surface.

Product Overview

Precision Ceramic Cutting

This high-performance 210mm welded saw blade is engineered for cutting high-hardness ceramic materials including porcelain, vitrified, and glazed tiles. It features a durable welded construction that ensures long-lasting performance, high sharpness, and a smooth, chip-free cutting surface. Designed for versatility, it is an ideal choice for edge cutting, striping, and mosaic work in professional tiling applications.

Technical Specifications

Diameter	210 mm
Bore Size	60 mm
Thickness	2 mm
Segment Height	10 mm
Number of Teeth	14

Compatibility & Usage

Compatible Machinery

- Manual cutting machines
- Automatic cutting machines
- Single-head machines
- Multi-head machines

Compatible Materials

Porcelain Tiles, Vitrified Tiles, Crystal Tiles, Glazed Tiles, Floor Tiles, Wall Tiles

Safety & Warnings

Safety Guidelines

- Wear ANSI-compliant eye protection
- Operate only with proper working guard
- Do not use if damage is suspected
- Never use on metal
- Do not exceed maximum blade RPM
