

2200W Portable Gasoline Inverter Generator

This gasoline-powered inverter generator is designed for portable power solutions. It features a 4-stroke engine with a 135cc displacement and digital inverter technology to provide clean and stable power.

Overview

Portable Power Solution

The EP2800i is a high-performance, portable gasoline inverter generator designed to provide reliable power for various applications. Featuring advanced digital inverter technology, it delivers clean and stable electricity, making it an ideal choice for powering sensitive electronic devices. Its compact design and efficient 4-stroke engine ensure both portability and consistent performance in a wide range of environments.

Performance

Key Performance Metrics

2200 W

Max Output

2000 W

Rated Output

135 cc

Engine Displacement

Technical Specifications

Engine Type	4-stroke
Fuel Tank Capacity	1.5 L
Output Voltage	220V-230V
Frequency	50 Hz

Features

Safety Features

Low Oil Shutdown • Overload Protection

Operational Modes

ECO Mode, Digital Inverter Technology
