Product Overview

Reliable Power for Small Watercraft

This 224cc gasoline outboard engine is engineered for reliability and performance in small boats. Featuring a four-stroke, air-cooled design, it ensures smooth operation and efficient fuel consumption during your time on the water. With its lightweight construction and user-friendly tiller handle, it offers precise control and easy portability for recreational boating and fishing.

Technical Specifications

Engine Displacement	224 cc
Engine Type	4-Stroke
Cooling System	Air-cooled
Starting System	Recoil Starter

Features

Key Design Features

- Lightweight construction for easy portability
- Durable propeller system
- Efficient fuel consumption

Control Mechanism	Tiller Handle, Precision Throttle
-------------------	-----------------------------------

Applications

Best Suited For

Small Boats • Recreational Boating • Fishing
