

2.2kW Gasoline Inverter Generator with Digital Display

This gasoline inverter generator delivers a maximum power output of 2.2kW and a rated voltage of 230V at 50Hz. The generator features two standard European outlets and a digital display showing voltage, frequency, and runtime.

Overview

Reliable Power Generation

This 2.2kW gasoline inverter generator is engineered to provide clean, stable power for a wide range of residential, commercial, and outdoor applications. Powered by a robust 224cc engine, it ensures efficient performance while maintaining quiet operation. The unit features an integrated digital display for real-time monitoring of voltage, frequency, and runtime, making it a dependable choice for emergency backup or portable power needs.

Design & Build

Design Highlights

- Robust frame construction for durability
- Two standard European power outlets
- Compact and portable design
- Integrated control panel
