

2.2kW Portable Gasoline Generator

This gasoline generator has a rated output of 2000W and a peak output of 2200W for starting larger equipment. It features a forced air-cooled, 4-stroke engine and can run for up to 13 hours on a full tank.

Overview

Reliable Portable Power Solution

This 2.2kW portable gasoline generator is engineered for consistent performance in both residential and commercial settings. Featuring a robust 196cc engine, it provides stable power output suitable for tools, appliances, and essential electrical equipment during outages or in remote locations. The unit includes automatic voltage regulation to protect sensitive electronics and is designed for extended operation with a fuel-efficient 15L tank.

Engine Specifications

Attribute	Detail
Engine Model	GX200
Displacement	196cc
Bore x Stroke	68 x 54mm
Starting System	Recoil

Fuel & Runtime

- Tank Capacity: 15L
- Run Time (Rated Load): 8.5 hours
- Run Time (1/2 Load): 13 hours

Electrical

Electrical Ratings

- AC Voltage: 220V
- Frequency: 50Hz
- Rated Current: 9.1A
- Max Current: 10A
- DC Output: 12V / 8.3A
