

230.4Wh Portable Power Station with 300W Inverter

This compact and versatile portable power station provides reliable power for various applications. With a 230.4Wh capacity and a 300W AC inverter, it can power small appliances and electronics.

Overview

Compact Portable Power Solution

This portable power station is designed to provide reliable energy for outdoor activities, camping, and emergency backup scenarios. It features a 230.4Wh capacity paired with a 300W pure sine wave inverter, ensuring clean and stable power for sensitive electronics. With a versatile array of output ports, including high-speed USB-C, it allows for simultaneous charging of multiple devices.

Technical Specifications

Battery Capacity	230.4 Wh
AC Inverter Output	300 W
Inverter Type	Pure Sine Wave
Max Solar/DC Input	200 W
Input Voltage Range	12V-28V

Output Ports

Available Output Ports

- AC Output (230V/300W)
- USB-C (100W)
- USB-A (5V/2.4A)
- DC Output (12V/10A)

Features

Key Features	Pure Sine Wave, Solar Charging, Emergency Backup, Portable Design, LCD Display
