Overview

Premium 23L Thermoelectric Cigar Preservation

This 23L thermoelectric cigar humidor is engineered to provide a stable, controlled environment for preserving the quality and flavor of up to 250 cigars. Featuring an eco-friendly cooling system and an aluminum glass door frame, it offers a sophisticated storage solution with low noise and minimal power consumption. The integrated digital controls and hygrometer allow for precise monitoring of internal conditions, making it an essential appliance for serious cigar enthusiasts.

Technical Specifications

User-friendly digital interface for precise temperature adjustments and light control.

Internal Volume	23 L
Temperature Range	8°C - 18°C
Cooling System	Thermoelectric (Peltier) Technology
Voltage / Frequency	110V or 220V / 50-60Hz

Key Features

High-quality wooden shelving designed for optimal air circulation and cigar preservation.

Core Benefits

Eco-Friendly, Low Noise, Low Power Consumption, Portable, DOE Compliant

Design & Build

Sleek design featuring a stainless steel frame and glass door for clear visibility of your collection.

Integrated hygrometer within the wooden drawer ensures precise humidity monitoring.

Slatted shelf design promotes uniform humidity and temperature distribution.

Interior Components

- Adjustable Spanish Cedar wooden shelves
- Wooden drawer with built-in hygrometer
- Internal LED display light
- Humidity control tray

Door Material

Aluminum Glass Door Frame with Tempered Glass

Dimensions

Unit Dimensions (W*H*D)

257 x 458 x 515 mm

Packing Dimensions (W*H*D)

295 x 515 x 548 mm

Quality & Compliance

Safety & Quality Standards

CE • CB • GS • ETL • ISO 9001 • BSCI • EMC • TUV
