

2.4 GHz Wireless Optical Mouse

This is a 2.4 GHz wireless optical mouse. It features an advanced optical sensor, customizable buttons, and ergonomic design for comfortable and precise tracking.

Product Overview

High-Performance Wireless Connectivity

This 2.4 GHz wireless optical mouse is engineered for professional environments, offering a seamless blend of ergonomic comfort and precise tracking. Designed to reduce physical strain during extended work sessions, it features advanced optical sensor technology for reliable performance. Its broad compatibility ensures it functions smoothly across various operating systems, making it an ideal choice for diverse office setups.

Technical Specifications

Connection Type	2.4 GHz Wireless
Sensor Technology	Optical

Key Features

Design & Comfort	Ergonomic Design, Extended Battery Life, Customizable Buttons
