

# 24-Inch Industrial Pedestal Fan

This industrial-grade pedestal fan delivers powerful air circulation in large spaces. The 24-inch fan head has three balanced blades and adjustable height and tilt settings for customized airflow.

## Overview

### High-Velocity Industrial Cooling

The 24-inch industrial pedestal fan is engineered for robust air circulation in demanding environments such as warehouses, factories, and workshops. Featuring a durable metal construction and a stable pedestal base, it ensures reliable performance and longevity. The unit offers adjustable height and tilt settings, allowing for precise airflow direction control to meet specific cooling or ventilation requirements.

## Technical Specifications

Fan Diameter	24 inch
Number of Blades	3
Speed Control	Multi-speed motor
Adjustable Features	Adjustable Height, Adjustable Tilt

## Safety & Construction

### Safety Features

Protective wire mesh grill

### Construction Material

Durable metal frame

## Applications

### Ideal Environments

- Warehouses
- Factories
- Workshops
- Commercial settings
