

24-Port CAT6A Patch Panel

This 24-port CAT6A patch panel is designed for high-density network installations, supporting 10 Gigabit Ethernet applications. It features numbered ports for easy identification and robust construction for durability, compatible with standard 19-inch racks.

Product Overview

High-Performance Connectivity

This 24-port CAT6A patch panel is engineered for high-density network installations requiring reliable, high-speed performance. Designed to support 10 Gigabit Ethernet applications, it serves as an ideal solution for data centers, server rooms, and enterprise-grade networking environments. The unit features robust construction for long-term durability and standard 19-inch rack-mount compatibility for seamless integration into existing infrastructure.

Technical Specifications

Number of Ports	24
Category	CAT6A
Shielding	FTP
Rack Compatibility	19-inch standard rack

Features

Identification	Yes
Key Features	10 Gigabit Ethernet Support, Numbered Ports, Robust Construction, High-Density
