

240mm Liquid CPU Cooler with ARGB Lighting

This 240mm liquid CPU cooler provides efficient cooling for demanding workloads. It features addressable RGB lighting on the fans and pump, and is compatible with a range of CPU sockets.

Overview

High-Performance Thermal Management

This 240mm all-in-one liquid CPU cooler is engineered for efficient heat dissipation, making it an ideal solution for overclocked CPUs and demanding professional workloads. Featuring integrated addressable RGB lighting on both the fans and pump housing, it combines aesthetic appeal with robust thermal performance. The system is designed for reliability, boasting a 70,000-hour operational lifespan and quiet acoustic performance, ensuring a stable computing environment.

Pump Specifications

Rated Voltage	12 V DC
Rated Current	0.3 A
Power Consumption	3.6 W
Pump Speed	2500 RPM
Noise Level	30 db

Performance Metrics

Cooling Performance

1300 mL/min
Min Flow Rate

1.5 M
Max Flow Rate

70000 hours
Lifetime

Physical Dimensions

Component Dimensions

Component	Dimensions (mm)
Pump	73 x 86.5 x 51
Radiator	395 x 119 x 27
Tube Length	350

Environment

Operating Temperature	-10 to 60
Storage Temperature	-10 to 70
